- Built in test button
- Intermittent chirping sound is given when battery needs replacement
- Uses one 9 Volt battery (included)

Sold: individually

Indian Pumps 90-G - Galvanized

Easy to carry, it is ideal for fighting grass and forest fires. Also for roof, trash, building and room fires. The tank may be filled from any faucet, well or stream. The extinguisher casts a steady, powerful stream of water over 50 feet.

Complete line of replacement parts available.
